

# Lesson 2: Express App Setup

## Introduction

Express is a fast, unopinionated, and minimalist web framework for Node.js.

## Setup Steps

- Install Node.js and npm.
- Initialize project: `npm init -y`
- Install Express: `npm install express`
- Optionally install Nodemon for live reloading: `npm install --save-dev nodemon`

## Basic Server Code

Example code:

```
const express = require('express');
const app = express();
app.get('/', (req,res)=>res.send('Hello World'));
app.listen(3000, ()=>console.log('Server running'));
```
